Moduals name:	Demo Login Page
Test Case ID:	student_1
Tester Name:	Shital
Test Case Description:	To validate the functionality of the login workflow and verify the UI elements, usability, and responsiveness of the Practice Test Automation demo login page.
Prerequisites:	1.stable internet connection.2.Brower for cross brower testing.3.valid URL for the login and signed pages..4.Test user credentials
Environment Information:	os:macos(Sequoria 15.5)system : laptop(macbook air)webpage URL:https://practicetestautomation.com/practice-test-login/

Scenario ID	Scenario	Test Steps	Test Input	Expected Results	Actual Results	Status	Comments
1a	Verify login page loads successfully	Open the login page	URL	Successfully signed up	Successfully signed up	Pass	with valid credentials. Expected result achieved. Test Passed.
1b	Sign up using already registered email	Click sign,enter existing emails,submit	Existing email	should created successfully	Account created successfully	Fail	Instagram allowed duplicate email account creation; needs deeper validation check
1c	Sign up with invaild usename	Enter invaild username	Invaild username	Error shown	Error displayed	Pass	Username format validation
1d	Sign up with whitespace	Enter space only	Whitespace	Show error	Error displayed	Pass	Whitespace-only input was correctly rejected; validation working as expected.
1e	Weak password	Enter weak password	Weak password like 12345	or message shown for weak passwo	Error displayed	Pass	Validates password strength check
1f	Password visibility	Toggle eye icon	-	Password becomes visible	Work correctly	Pass	Usability check for password input
1g	Responsive layout	Resize brower	-	responsive	responsive	Pass	UI responsiveness test
1h	International phone	Enter +49..	phone	country accepted	Accepted	Pass	Tests international number support
2a	Valid login	login	valid creds	homepage	Login successful	Pass	Main login flow
2b	Wrong password	login	Wrong password	error	Error shown	Pass	Password validation
2c	Empty fields	leave blank	Blank input	disabled/login prevented	not pressable	Pass	Error not shown, but login prevented via button
2d	Case sensitivity	change case	Mixed case	Expected behavior	Behaved as expected	Pass	Emails are not case-sensitive; usernames are, o changing case points to someone else's account; passwords are always case-sensitive
2e	Forget password	Resent flow	Registered email	Resent starts	Reset process starts	Pass	Forgot password working
2f	Mobile visibility	Open login page on mobile device	-	visible	Looks good	Pass	UI responsive on small screens
2g	Social login	Facebook/Google	Valid account	login	logged in	Pass	Login with Facebook was successful; redirected to homepage without issues.
2h	Rate limit	20+ failures	Wrong password	rate limit	no limit	Fail	No rate limiting or CAPTCHA implemented, poses a risk for brute-force attacks. Needs backend support for login attempt monitoring.
3a	Logout	logout	Logged-in session	back to login	back to login	Pass	Covers standard logout flow
3b	Back button	back after logout	Logged-in session	stay looged out	stay looged out	Pass	Validates session clearing
4a	Button allignment	observe	None	aligned	aligned	Pass	Covers UI layout check
4b	Dark mode	Enable	None	good contrast	good contrast	Pass	Covers accessibility in dark mode
4c	Field spacing	observe	None	adequate	adequate	Pass	Fixes crowded appearance issue
4d	Click feedback	click controls	None	visual feedback	visual feedback	Pass	Checks interactive feedback
